Problems Encountered:

A challenge encountered this quarter is again not being able to identify an alternate placement in a timely manner for youth who are wards of the state due to exhaustion of alternate familial placement and limited foster care placement. Once a youth exits from shelter services, one of the vital parts in maintaining reunification is to sign up for aftercare services to help reduce the recidivism rate. The youth and parent are always encouraged to sign up for aftercare services to help with the transition back home easier when problems arise. Unfortunately most clients who have exited our care this quarter opted not to participate in aftercare, but were still provided with a transitional plan to be used at their discretion. Parent involvement in programs (groups and supportive counseling) is limited; parents do not participate in all the services we recommend despite agreeing to participate and access other services upon intake of client.

Future Plans:

The Case Management and Counseling departments have developed corrective action plans to address several deficiency areas such as improving data collections, monitoring of case management activities, and case updates. Sanctuary continues to partner with agencies such as Child Protective Services and the Department of Youth Affairs by increasing day to day communication to discuss ways to better serve clients in shelter. With the assistance of our Executive Director Theresa C. Arriola, we continue to partner up with other human service agencies who are able to cater to the needs of the youth and families who seek our assistance.

Performance Measures:

Social Competence	Case Manager and shelter staff have reported to observe improvement in social interactions and, defined as maintaining positive relationships with others 19 of 24 (79%) clients served within this reporting period. Observations are based on demeanor and nature of client interactions as documented using daily client progress reports.
Family Relationships	Noted improvements in family relationships, defined as willingness to address family issues, and improved styles of communication, has been reported by case manger 18 out of 20(90%) based on parents verbal feedback to the Case Manager. Several of the clients during this reporting period were wards of the state. The number provided above only includes clients who were able to work towards reunification with a family member or foster parent. It is challenging to work on a family relationship when a family member or foster parent is not identified. More than 30 days are needed to work on fostering a positive relationship when working with CPS clients and their family members or foster parent.
Families Satisfied with Program	

	<p>A total of 20 out of 24 family members completed Sanctuary's Satisfaction Survey during this reporting period. Of the total number of family members who have completed the satisfaction survey, 85% have reported to be satisfied with all aspects of the program including a 85% of families stating that they will access Sanctuary services for future familial issues. Again the numbers above only include cases in which parental involvement is present. Areas surveyed include:</p> <ol style="list-style-type: none"> 1) Noted quality in family relationships 2) Future access of services 3) Accessibility and response time 4) Overall rating of services 5) Recommending services to others
Client Satisfaction	<p>Of all clients who have completed satisfaction survey, 75% have reported an increased quality in familial relationships. A total of 75% have stated that they had good or very good access to services with prompt response time. A total of 75% have rated overall services as good or very good and 90% of clients surveyed have indicated that they would likely or very likely refer others to Sanctuary for services needed.</p>
