Problems Encountered:

A challenge encountered this quarter is again not being able to identify an alternate placement in a timely manner for youth who are wards of the state due to exhaustion of alternate familial/relative placement and limited foster care placement. The youth and parent(s)/legal guardian(s) are always encouraged to sign up

for aftercare services to assist with transitioning the youth back home and if problems may arise. Parents and/or guardians failed to make regular or any contact with their child while in the shelter. It was a challenge to establish communication and schedule family quality time due to parents and/or guardians being out of reach or difficult to contact. In addition, clients are experiencing delay in the reunification process due to legal guardians being unemployed, homeless, financially unstable, etc. Other concerns involve clients frequently remanded to DYA for beyond control issues. This causes set backs in their Individual Program Plan and their goal to reunite with their families.

Future Plans:

The Case Management and Counseling department continue to develop corrective action plans to address several gaps in services such as improving placement time periods, monitoring of case management activities, and case updates. Sanctuary continues to partner with agencies such as Child Protective Services and the Department of Youth Affairs by increasing day to day communication to discuss ways to better serve clients in shelter. To assist with these plans, we continue to increase our staff population. Executive Director Victor Camacho, appointed in February of 2019, is working with the team to find innovative ways to access support services that directly benefit the COED Emergency shelter. We also receive funding under the VOCA grant to assist victims of crimes, which we often encounter; and funding through the Basic Center grant to assist in funding self-referrals in shelter.

Performance Measures:

Social Competence	Case Manager and shelter staff have reported to observe improvement in social interactions and, defined as maintaining positive relationships with others; 12 of 14 (85%) clients served within this reporting period. Observations are based on demeanor and nature of client interactions as documented using daily client progress reports.
Family Relationships	Noted improvements in family relationships, defined as willingness to address family issues, and improved styles of communication, has been reported by case manger 5 of 14 (35%) based on parents verbal feedback to the Case Manager. Several of the clients during this reporting period were wards of the state. The number provided above only includes clients who were able to work towards reunification with a family member or foster parent. It is challenging to work on a family relationship when a family member or foster parent is not identified or uninvolved. More than 30 days are needed to work on fostering a positive relationship when working with CPS clients and their family members or foster parent.
Families Satisfied with Program	A total of out of 14 families reported verbal feedback during this reporting period. Of the total number of families who have reported 92% have stated to be satisfied with all aspects of the program including, 84% of families stating that they will access Sanctuary services for future familial issues. Again the numbers above only include cases in

	<p>which parental involvement is present. Areas surveyed include:</p> <ol style="list-style-type: none"> 1) Noted quality in family relationships 2) Future access of services 3) Accessibility and response time 4) Overall rating of services 5) Recommending services to others
Client Satisfaction	<p>Of all clients who have completed satisfaction survey, 100% have reported that they felt safe while here at Sanctuary. A total of 100% have rated that they were either very satisfied or satisfied with the overall care and support services received.</p>
